

REV. PIERCE TURNS UP IN HONOLULU

"Marrying Parson," Wanted by Oakland Police, Appears in Hawaiian Islands Mines Famous, Luxuriant Beard

Charge of Attempted Bribe Against Pastor, Who Holds Record of Performing Numerous Marriages, May Drop

When Rev. John H. Pierce, known as the "marrying parson" because of the many matrimonial knots he has tied, presented his card at a daily newspaper office in Honolulu and was admitted and interviewed by a reporter, little did he suspect that what he said and what the reporter wrote about him, illustrated with a reproduction of his photograph, would ever reach Oakland and subsequently the Oakland police department, where a warrant has been held for his arrest since March 12.

A few days prior to the issuing of the warrant, which was sworn to by William O'Malia, a deputy military inspector of the health department, who charged the parson with attempting to bribe an official, Pierce disappeared from the East bay district, and when a plain clothes man went to serve him with the warrant he was not to be found.

USE OF MONEY IS CHARGED BY INSPECTOR

O'Malia charged that Pierce gave him a \$10 bill with the request that he "take care" of Pierce during an inspection of a tenement occupied by the parson at 435 Fifth street. In reply, Pierce stated that he had no money, but that he would be glad to have his marriage bureau and where he said he had married 7000 couples.

When Pierce was in Oakland, he wore a long flowing beard. But when he reached Honolulu, the beard had vanished and Pierce's face was as smooth and pink as a babe's.

Whether or not the Oakland police department will wire Honolulu to hold Pierce until a police inspector from Oakland can come and bring him back depends on the decision of the complaining witness who caused the warrant to be issued. It is thought likely Pierce will be dropped since Pierce is in Honolulu.

PARSON RESIDED HERE FOR SEVERAL YEARS

Pierce had resided in Oakland for over twenty years. He is 45 years old, and two years ago became the father of a child by his young and third wife. He has a great grandchild who is two years the senior of his son.

Those who knew Pierce in Oakland would not recognize him now, minus his beard and with a straw hat on one side of his head.

U.S. Army Mule Valiant in War, Records Show

BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE.

WASHINGTON, April 19.—The patient, long suffering, hard working and oft ridiculed army mule has at last come to his own in an appreciation from the quartermaster general.

By the "low down" the army mule came today in an official publication. There were more than 45,000 of him engaged with the army overseas and 100,000 with the troops in the United States, and the army mule lived up to its established reputation for enduring, sacrificing and dying like a soldier.

There were times during the first year of the world war when it was necessary to keep mules on the move 48, 60 and sometimes 72 hours, with hardly more than a pause. Then it was possible only to feed a small amount of grain and a few handfuls of hay. Under these strains the mule went forward, staving his all uncomplainingly.

The mule had always been given the credit of being able to eat a few handfuls of hay. Under these strains the mule went forward, staving his all uncomplainingly.

When tired he makes his condition known by gutting. However, this quality did not come to the fore during the days of St. Mihiel and in the Argonne.

Japanese, Russ Fight With Bombs, Rifles

HARBIN, Manchuria, April 19.—(By The Associated Press.)—While Japanese troops were removing arrested workmen from the railroad station at Kharin, on the Trans-Siberian railway near the Trans-Baikal border, the United States threw a bomb, to which the Japanese replied with rifle fire, according to reports received here. Czech troops, the advices say, thereupon fired on the Japanese from an adjacent car. A fight followed that lasted three hours and resulted in a number being killed or wounded on both sides.

Bush Terminal Is Saved From Flames

NEW YORK, April 19.—Bush terminal, in Brooklyn, one of the largest terminals in the world, was saved by firemen from destruction today when fire virtually destroyed the steamship Halstead, which was berthed at one pier of the terminal. Explosions occurred in 1500 tons of nitrate in the vessel's hold and two piers nearest the ship were damaged. A few firemen were overcome and several terminal employees were removed to hospitals slightly injured.

Californian May Wield Gavel at Bourbon Meeting

(By United Press.)

CHICAGO, April 19.—Names of Californians eligible to give the annual Democratic convention in order to be in San Francisco were jumbled here today with the gathering of the party's executive committee and the committee on arrangements.

Among the names mentioned for the temporary chairmanship were Chas. Clark, Senator Hitchcock, Warren McCornack and two San Francisco politicians, Charles Foy and Gavin McNab. The selection will be made tomorrow. At the same time the executive committee will work on organization matters.

Senate to Pass Naval Base Bill at Once, Belief

Measure Will Be Expedited by Favorable Report of Chairman Page

Despatches from Washington today received by the Oakland Chamber of Commerce from Joseph E. O'Neil, managing director, said the navy appropriations bill carrying \$1,900,000 for a San Francisco naval base was expected to come before the senate tomorrow or Wednesday.

The bill has been on the calendar for a week, but has been shunted aside for other legislation. Now it is believed it will pass before this week's adjournment.

When the bill comes up for consideration it will be accompanied by a report from the senate naval affairs committee, in which the chairman, Senator C. Page of Vermont, says regarding the Pacific coast:

ADDITIONAL FACILITIES

ON PACIFIC COAST

The principal items comprising the additional appropriations for public works are due to the contemplated development of the west coast for the proper care and maintenance of the Pacific fleet, which consists of half of the modern units of our navy.

The committee deems it essential that adequate docking and repair facilities be developed and has recommended additional appropriations in this bill, as it believes will secure the desired action.

It is considered as being directly on Senator Page's amendment of the bill as passed in the house, in which the Californian says the governmental machinery in motion for a naval base on San Francisco bay.

CLAUSE REARS UPON PLEASANT AMENDMENT

According to official copies of the bill put into circulation by the Chamber of Commerce, reads as follows:

Toward the establishment of a docking and repair plant for capital ships on San Francisco bay, including the development thereof with necessary facilities, \$1,000,000; provided, that the secretary of the navy shall submit a report to the committee on report to congress as to which of two sites, Alameda or Hunters Point, shall be most advantageous for the government, and the estimated cost of each, to be made not later than October 1, 1920.

In view of recent developments it was confidently expected at the Chamber of Commerce offices that action on the bill would be obtained in Washington by May day.

TAMALCRAFT SEEKS VISTA FOR GENIUS

Organization of Artists and Artisans Decides Berkeley Is Too Circumscribed and Will Colonize in Open Air

Mount St. Helena Chosen As Base for Community That Promoters Say Will Rival Elbert Hubbard Roycrofters

The four walls of a house have hampered the genius of Tamalcraft long enough. So say the Tamalcrafters of Berkeley. Hereafter the broad landscape for miles east of Mount St. Helena and the four winds that sigh through the great trees thereof will be their inspiration.

There is to be not the first experiment in colonization in the West nor the second nor third. Still it will be probably the first effort to colonize genius and Tamalcraft is as plumb full of genius waiting to be colonized or something as is a persimmon of seeds.

HUBBARD'S ROYCROFTERS WILL BE RIVALED

The news that several scores of persons prominent in the art and life were interested in what is to be an experiment in community life and endeavor was disclosed today with the plans of the Tamalcrafters, who declare that on the 100 acres they are buying in California will arise an art and literary center of national importance. It will rival, they say, Elbert Hubbard's Roycrofters at New Bedford and the famous Otis Community of silver and lace fame.

The property to be purchased by the Tamalcrafters, for which negotiations are now under way, is the old Sutro place near St. Helena. It is about 100 acres and is owned by "Silverado" of Robert Louis Stevenson, and is steeped in all the romance and beauty that the new owners consider so requisite. There will be built cottages, workshops and community halls, and there will be the singer, dancer, writer and artisan work with all the inspiration that comes from well wishes of his fellows.

Each Member Must Be Genuine Producer

The community, it is announced, will be for Tamalcraft club members alone. To become a member it is necessary that a person must be a producer and not an idler. He must have an artistic or literary bent or be able to make something with his hands.

Members of the club are pledged to help the genius in the struggle to make it possible for him to give the world his riches and, eventually, it is said, the club will dedicate its work to down-and-outers of all kinds. Business and not art is the aim. The expenditure of \$150, which carries with it the privilege of building a cottage or erecting a tent on the property.

GRASSHOPPER MAINTAINS QUARTERS IN BERKELEY

Among some of the members of the organization, which now has its headquarters at Dwight Way and Hillebrand avenue, in Berkeley, are Arthur Street, writer of Oakland; Victor and Milton, composers, and O. M. Causch, violin maker.

The club expects to announce within a few weeks that the negotiations for the plan call for an expenditure of \$150, which carries with it the privilege of building a cottage or erecting a tent on the property.

\$1,129,000,000 Is Lost by U. S. in Running Railroads

(By Associated Press.)

WASHINGTON, April 19.—Total loss to the government growing out of federal control of the railroads was estimated today by the House appropriations committee at more than \$1,129,000,000. This includes the \$225,000,000 estimated as guarantee to the roads under the terms of reduction of \$100,000,000 in the \$420,000,000 asked by the railroad administration to wind up its affairs was made today by the House appropriations committee.

The new appropriation would bring the total of funds granted the railroad administration to \$1,789,000,000.

Faneuf, Whalin Littlefield in Recall Battle

Citizens' Committee Names Candidates to Take Field Against Officials.

Colonel Ralph Faneuf, W. E. Whalin and R. W. Littlefield are the three candidates selected today by the citizens' committee to run against Commissioners Soderberg, Edwards and Morse in a recall election.

The announcement of the committee, which was instrumental in circulating the recall petitions and which has established headquarters on Broadway, is signed by L. C. Fraser as chairman and follows:

"The citizens' committee in answer to the public demand for a business administration to encourage Oakland's manufacturing and commercial progress announces the candidacy of Colonel Ralph Faneuf, W. E. Whalin and R. W. Littlefield for the commission Soderberg, Edwards and Morse."

Faneuf was the leader of Oakland's 133d Field Artillery and before and after his country's service has been superintendent of mails. W. E. Whalin is president of the Builders' and Contractors' association, enjoying an enviable reputation for sound judgment and honesty. R. W. Littlefield, born and raised in Oakland, is a Spanish-American war veteran, member of the Scottish Rite Masonic bodies and active member of the Elks and Lions Clubs and contractor.

In order to insure the greatest confidence in our efforts to supplant our petty bickering city government with a constructive administration, the citizens' committee has successfully selected the services of these leading citizens who have never before sought public office and who have consented to serve now only in realization that Oakland's progress demands immediate non-political action.

"The mere mention of these candidates refutes the sidestepping, insincere arguments of Soderberg, Edwards and Morse to have recourse to answer the charges of incompetency and are content on calling the citizens' committee a group of gamblers and vice kings."

"The citizens' committee and our candidates are going before the people upon a dignified platform for making Oakland a prosperous manufacturing center and home city. We are not going to permit incompetency to attempt to justify their incompetency by hiding behind past abuses of the recall."

"We sincerely believe that if our candidates who are representative business men, can come forward in answer to the call of service to Oakland and the honest citizenry and taxpayers in Oakland should not stand back timidly and shrink their part."

"The combination Commissioners Soderberg, Edwards and Morse use as their chief defense in evading the recall is that they are not going to permit incompetency to attempt to justify their incompetency by hiding behind past abuses of the recall."

"By L. C. FRASER, Chairman."

Twenty-two verification deputies secured signatures to recall petitions have been appointed to date by City Clerk Lon Cummings.

CAPT. STOKES, SLAYER, WILL ADMIT GUILT

Army Officer Who Shot and Killed Dr. E. E. Roberts in Los Angeles Over His Wife, Agrees to Abandon Fight

War Veteran Takes Action to Spare the Woman Involved and for Sake of the Future of Two Small Children

LEASED WIRE TO TRIBUNE.

LOS ANGELES, April 19.—Captain Charles L. Stokes, prominent overalls army officer, and slayer of Dr. E. E. Roberts in a fight for the love of his wife, Mrs. Josephine Stokes, last October, will plead guilty to a charge of manslaughter instead of being put to trial for a first degree murder charge. Dr. Roberts was a well-known local physician and ex-regimental army man.

This exclusive announcement is made today on authority of District Attorney Thomas Lee Woolwine, for the prosecution, and Attorney Le Comte Davis, for the defense.

Impelled by that same fervent love of his wife that drove him to commit the slaying, Stokes agreed to the manslaughter plea in order to save Mrs. Stokes from public humiliation in telling the story of her relationship with Dr. Roberts from the witness stand.

FATHER HAS THOUGHT OF SMALL CHILDREN

Arrangements were made for Stokes to appear before Superior Judge Gavin W. Craig late this afternoon to withdraw his plea of not guilty to the murder indictment and enter the plea of guilty to manslaughter.

The thought of his two small children and their future was also foremost in the mind of the slayer when he notified his attorney that he would plead guilty to manslaughter instead of a first degree murder charge. A complete agreement was made by District Attorney Woolwine and Defense Attorney Davis for Stokes' guilty plea.

Immediately after Stokes' plea of guilty his attorney was prepared to file an application for probation, the first move in a new effort to gain freedom for him.

"OTHER" MAN REFUSES TO TAKE WARNING

Stokes' attorney, Dr. Roberts, in one of the most sensational cases in the history of the state, returned from overseas service, whence Roberts had been recently returned, he learned of the doctor's attentions to Mrs. Stokes and warned him in her presence. Stokes, who had ignored this warning and the captain returned home unexpectedly one evening when the doctor was just leaving in his car.

Stokes was in the doctor's car and administered a beating that left Roberts unconscious. He then started to drive the injured man home. Stokes' story is that Roberts regained consciousness, attacked him and that during the struggle the car went over an embankment and caught fire. Both men jumped from the machine, Stokes pursuing the doctor. Stokes' attorney said he had already won Mrs. Stokes' love. Stokes, according to his story, then shot and killed him.

Railroad Board Refuses to Consider Any Complaint or Meet Delegates From the Striking Rail Men's Bodies

Ten Leaders Arrested in Big Raid by U. S. J. J. Grunau Is Taken to Jail When He Refuses to Put Up Bonds

LEASED WIRE TO TRIBUNE.

CHICAGO, April 19.—Threat of a new strike among railroad employees in the Chicago district today confronted claims of railroad managers and brotherhood officials that the "insurgent" switchmen's strike had been broken and the situation rapidly was returning to normal.

Eight thousand freight handlers and 30,000 railroad clerks employed on all lines entering Chicago will take a strike vote tonight, after a conference today with the railroad heads, George A. Worrell, chairman of the Chicago and Northwestern railroad clerks, announced. He said he had been empowered to speak for all the clerks and freight handlers.

Worrell did not announce demands to be presented, but said there "seems little chance of compromise" and the men probably would strike Tuesday.

In the switchmen's unauthorized strike continued improvement in traffic conditions throughout the central and far west was noted.

On the Pacific Coast railways operated today for the first time since the strike without embargoes on perishable freight.

As a result of a new federal descent on strike leaders at Chicago ten men were arrested. Nine were released on their own recognizance to appear today and make bonds of \$10,000 each. But Harold Rogers, chairman of the board of directors of the United Engineers' Association, was sent to jail when he would not pledge himself to stay away from the strike meetings.

French and Italians Agree On Necessity of Expedient at San Remo Meeting, But Are Divided As to Method

United States Fails to Send Official Representative to Supreme Council's Parley Over Adjustment in Europe

SAN REMO, April 19.—(By the Associated Press.)—The Inter-Allied Supreme Council began its formal sessions today in the Villa Devauchau, on the hills to the northwest of the main town.

PARIS, April 19.—(Havas.)—Allied occupation of the Ruhr Basin in Germany, being considered by allied premiers gathered at San Remo, says the Petit Parisien. Premiers Lloyd George, Millerand and Nitti have agreed, in principle, on the necessity of forcing Germany to disarm. The premier declares, but were not agreed as to the best means of procedure.

There was a certain coolness between Lloyd George and Lloyd George at the opening of the meeting. It vanished in a short time and utmost cordiality prevailed at the close, according to the Matin.

POINCARÉ OBJECTS TO REVISION OF TREATY

Demands that the allies during the San Remo meeting resist all attempts to revise the terms of the Versailles treaty with Germany are made by Raymond Poincaré, former president of the French Republic, and a publicist, by the Matin. France and Belgium have been deprived of guarantees by the failure of Great Britain and the United States to put the tripartite alliance on a new basis, he says, and the league of nations is as yet without means of action.

Millerand says the allied governments should support France, Germany, and asserts that France and Belgium could not have done otherwise than advance east of the Rhine when German regulars invaded the neutral zone in the Ruhr Basin.

SAN REMO, April 19.—"The principles have been violated in the allies' treaty of peace with Turkey," Chahib Kemel Bey, member of the Turkish armistice commission, and former ambassador to Berlin, said in an interview here tonight. Asked whether the terms of the treaty had been communicated to him, the Turkish representative said:

"Not officially. Probably the peace conference consider that action superfluous. The world, however, will be surprised to hear them. The treaty is essentially a British product. It aims to surround Turkey, cutting the communications of the Moslem world. But what use is talk? Our fate was decided in London."

JOHNSON CLUB TO HOLD FIRST RALLY

James M. Oliver will be the speaker at the first organization rally of the Johnson-for-President Club in Oakland, to be held tonight at the headquarters, 1224 Broadway. The meeting was called by Mrs. Essie Woods Gustason. Oliver is to speak on the Johnson campaign and the club will be effected.

Railroad men of the Eastbay cities pledged their support to Hiram W. Johnson at a meeting held yesterday at the headquarters on Broadway. The meeting was arranged by the Eastbay Railroad Employees' Johnson-for-President Club and the speakers were: John Towner, Fruitvale; R. J. Mitchell, Berkeley; Charles Alvarado, Albany; W. B. Canan, Alameda; James McCaulley, Alameda; and Fred E. Stewart, Oakland. The resolution declared: "We urge all fellow workers in all the states of the Union to look into Hiram Johnson's labor record, which is without a flaw and worthy of the appreciation of every worker." Geo. Simpson is president of the club.

The candidacy of Hiram Johnson for the presidency has been unanimously endorsed by the executive council of the State Federation of Labor, which has sustained the recent action by the committee on political activities in a joint endorsement with the Building Trades Council of San Francisco.

In reply to claims of the Hoover campaign managers that Johnson is a member of the water-front was for his candidate, Don Cameron, president of the Pile Drivers' Union, has issued a statement in which he says that of the 20,000 voters he cast in the front less than 100 are for Hoover.

"Country comes before college and Hiram Johnson's record in public life fits him for President of the United States." This is the message which 200 supporters of Johnson are emphasizing at Stanford, where the Johnson-for-President Club is gaining many new members.

Johnson meetings will be held in Livermore and Hayward tonight. The Hayward meeting will hear John Francis Neelan and Mrs. Katherine Phillips Edson speak for the candidate and at Livermore Maxwell McNutt will deliver the address.

News of the Churches

Rev. John Snape, D.D., began his message at the First Baptist Church yesterday under most favorable conditions; a beautiful day, large audience, a hearty and touching welcome and two candidates awaiting baptism. In his first sermon, Dr. Snape said among other things: "Christ's first sermon in his home town was a flat failure. They tried to kill him for preaching it. And what a sermon! It was a message of Evangelism; to preach the Gospel to the poor; a message of consolation to the broken-hearted; a message of revelation recovering of sight to the blind; a message of liberation 'to set at liberty them who were bound by the day on which Christ delivered it; was a flat failure. But, continued the pastor, 'measured by the thousands of converts of the early centuries, by the martyr fires of Nero's garden, by the spires of meeting houses that everywhere like human fingers point men upward toward God; measured by the widening influence of Christianity on educational institutions, by the prayers of childhood; measured by the heroic fidelity of Christ's crusaders in every age—last sermon was the greatest sermon the world ever knew. The sermon that lives is the sermon that is lived."

SAYS CHRISTIANITY CAN SAVE WORLD

Preaching on the subject "What Is Pentecost?" Dr. Charles L. Kloss, pastor of Plymouth Congregational Church, declared that Christianity alone would save the world from the chaos which he believes will come if viable governments are not established in Europe.

"The situation now," he said, "isn't all one of confusion. It is a test, someone has said, not for more power; a fight to be the dominating power in American affairs. However, once men are panned with power from above they are organized for good and only so will human brotherhood and the deliverance of the world be accomplished."

OFFERINGS FOR MISSIONS BIG

The Christian and Missionary Alliance closed its convention last night but an extra session has been put on for tonight. Rev. E. J. Richards of New York will speak on "What Should Be the Child of God Toward the Interchurch World Movement?" The convention was considered the best ever held for attendance, interest and future prospects. The offering for missions amounted to \$10,000. The service was held at the Gospel Tabernacle on Twenty-first street.

MISSIONARY SOCIETY WILL MEET TUESDAY

One of the more important mission meetings of the week is that of the Woman's Home Missionary Society of the California Conference to be held tomorrow morning and afternoon in the First M. E. Church in Alameda. Following the Fortieth Anniversary luncheon at 12:30 the church of Mercy will be "launched." Various good speakers about the Eastbay will be heard and a quartet from the First M. E. Church, Oakland, will render selections.

HARACA GLEE CLUB TO GIVE PROGRAM

With the help of members of Mills College faculty, the Haraca Club and King's Daughters Circle of Tenth Avenue Baptist Church, will hold the last of the successful series of "Neighborhood Nights" at the Tenth Avenue Church tonight. The Haraca Glee Club of fifteen trained male voices will make its initial appearance under the direction of Dr. Charles D. Goodman. Mrs. Marion L. Stebbins of the Snoken Family Department of Mills, well known for her dramatic work, will give several readings. The public is invited; no admission charge will be made, or collection taken.

ENTERTAINMENT AT ST. JOHN'S

Under the auspices of St. John's Social Service League an entertainment will be given at St. John's Episcopal Church tomorrow night, featuring a movie "Hilda" from Holland. The doors will be opened at 7:15. A silver offering will be taken. Community plans and the Daily Vocational Blue school will be discussed after the entertainment. The pastor, Rev. J. L. Foster, desiring members of the parish to meet with him at 8:30 in the church hall. On Wednesday the Church Service League meets in the Guild hall at 2:30. There is much work to be done and the president, Mrs. N. H. Nesbitt, expects all to be present.

BODY IDENTIFIED AS HUIRT BRIDE

SEATTLE, April 19.—The body of a young woman found in a shallow grave at Plum station, near Seattle, has been positively identified by friends as that of Miss Betty Prior, former waitress, who married "Bluebeard" Huirt here last April and afterward disappeared. Miss Prior married Huirt under the name of Lewis, afterward willing him all her money, about \$1800, friends declared. A laundry mark materially assisted in the identification.

The last word heard here from the girl was a postcard from Portland dated June 6, 1919. June 8 is the date on which the body was found.

LOS ANGELES, April 19.—Suspicion of the murder of an unidentified woman who was found slain near El Centro, Cal., January 30, 1919, was today directed against Charles Newton Huirt, modern Bluebeard and "husband" of twenty-five women, by Deputy Sheriff Bell and Couts. The deputies sought to identify the murdered woman as one of Huirt's wives and to solve the mystery that has shrouded the slaying for more than a year. The body of the slain woman was found in a wash near El Centro. She had been beaten and stabbed to death and an effort had been made to burn her body.

Says Husband Took Dress She Earned

Although earning \$9 a day, Olympia Souza failed to provide her with sufficient clothing, Mrs. Georgia Souza says in her divorce complaint. Wishing to make a good appearance on Easter Sunday as her friends she went to work and earned \$15 which she used as a payment on a new dress. Her husband came home, she says, and discovering the credit check for this amount, he took it back to the merchandise store, exchanged it for cash and kept the money for himself. Although she also charges her husband with beating her, Mrs. Souza declares this was the final indignity which decided her to obtain a separation. She seeks alimony, support and custody of her three children.

SHE WASN'T SICK, BUT HER CHILDREN WERE

Six Months of Care and Worry Were Too Much For Her

GOT THIN, NERVOUS, TIRED

Her Brother-in-Law, a Doctor, Said She Was Anemic, and Advised Pepto-Mangan

Here is a story of a strong, vigorous mother who never knew what ill-health was. But three years ago her two little boys got into the habit of being sick.

Six months of care and worry were too much for her and brought to light the fact that, with all her apparent vigor, she really was anemic. She lost flesh, couldn't sleep well and got nervous.

Then the doctor (her brother-in-law) prescribed Pepto-Mangan. She said: "Fred explained a lot about the special sort of iron content in Pepto-Mangan, and a lot of other things that I don't understand but what I do understand is that a bottle of Pepto-Mangan is always going to be in my medicine closet as long as I live. Whatever it contains I don't know or care, but I do know that it builds me up when I feel run down, and that's enough for me."

Guido's Pepto-Mangan is an absolutely dependable red-blood builder in all conditions of lowered vitality not due to serious disease of the vital organs. It improves the appetite, imparts color to the cheeks, and creates new hope and ambition in those who have become pale, weak and listless. Physicians recommend Guido's Pepto-Mangan. When you order, be sure the word "Guido's" is on the package. Without "Guido's" it is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists—Advertisement.

PIERCE ARROW

"The First Fifty"

Truck No. 47 was one of three trucks purchased by the Mason Coal Company of Hartford, Conn., in the summer of 1911. Of the three, truck No. 47 is the only one which is in existence. The other two were trucks of another make.

Although the unit has traveled more than 200,000 miles, the original worm gear still propels it. The truck is used in city coal deliveries and during rush periods has been used 78 hours a day. The coal company since have purchased two additional Pierce-Arrow five-tonners because of the permanency of the original tract.

POLICE PROBING MARQUARDT DEATH

Suspecting that John Marquardt of 2620 Bancroft way, Berkeley, who dropped dead last night at 11:30 at the home of a friend, A. Lindstrom, of 403 Seventh street, was poisoned with a soft drink which he had just taken at a downtown soda fountain, police today are conducting a thorough investigation.

Marquardt complained of feeling ill and died in agony in a few minutes. An autopsy will be performed.

Inspectors Vernon Coley and Frank Neils are probing the case. Benjamin Johnson, owner of a radiator shop at 1714 Broadway, was found dead in his room at 4317 View street, San Francisco, yesterday and attaches of the Oakland and the Chamber of Commerce, members of the Chamber of Commerce, city government and board of supervisors, Lieut. General Hunter Liggett and many other celebrities were present. John A. Britton was toastmaster.

S. F. HAS FETE TO CELEBRATE RISE SINCE FIRE

SAN FRANCISCO, April 19.—Several hundred prominent Californians gathered at the Palace hotel ballroom at 12:30 o'clock today in celebration of the remarkable growth of this city fourteen years after the great fire of 1906.

Governor William D. Stephens, President David P. Barrows of the University of California, members of the Chamber of Commerce, city government and board of supervisors, Lieut. General Hunter Liggett and many other celebrities were present. John A. Britton was toastmaster.

Blow of Golf Ball May Prove Fatal

MENLO PARK, April 19.—Struck squarely between the eyes by a hard-driven golf ball on the links of the Menlo Park Golf and Country Club last Sunday, Oscar Boldemann Jr., secretary of the San Mateo Post of the American Legion, incurred injuries that may prove fatal. Boldemann was taken to the Red Cross Hospital at San Mateo with blood pouring from his nose. Before the flow of blood was stopped by physicians, Boldemann became so weak that grave fears are felt for his life.

THE SPRING RAINS BRING GRIPPE

This sort of weather brings colds and grippe. If it's just a common cold people say, "there's no danger in that!" But many a fatal sickness begins with a cold—with vitality weakened—the system is ready for the influenza germs. Begin early to ward off the attack. Purge the system of the toxins (poisons) by taking castor oil, or a vegetable laxative made of Mayapple, leaves of aloe, and jalap, rolled into sugar-coated pills and to be had at all drug stores as Dr. Pierce's Pleasant Pellets.

If the cold starts with a cough, and it persists then some local treatment for this condition should be taken. A well known alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs without alcohol, and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to see young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

Her Doctor Advised Vinol

Aiken, S. C.—"My little girl five years of age had been delicate all her life. Last January pneumonia left her in a very weak, run-down condition with no appetite, and she could not keep still a minute, not even in her sleep. We were very much worried about her, and our druggist, who is a doctor, said Vinol was the best tonic he knew for one in her condition. We tried it and you ought to see how she has improved.—Mrs. LEONARD W. GEORGE.

We ask all parents of weak, sickly, delicate children in this vicinity to try Vinol with the understanding that we will return your money if it fails to benefit your little ones. Children love to take it.

Your money back if it fails. The Old Drug Co. and druggists everywhere.

Appetite Keen and Bowels Regular

You can relish your meals without fear of upsetting your liver or stomach if you will put your faith in Carter's Little Liver Pills. Foul accumulations that poison the blood are expelled from the bowels and headache, dizziness and sallow skin go.

Whooping Cough. In this disease it is important that the cough be kept loose and expectoration easy. This is best accomplished by giving Chamberlain's Cough Remedy. That preparation also tends to liquefy the tough mucus, making it easier to expectorate and renders the fits of coughing less frequent and less severe. It has been used in many epidemics of this disease with the best results. It contains no cocaine or other narcotic. For sale by Osgood Bros. Drug Store.—Advertisement.

MRS. NELLIE PECK, of Kansas City, who says her little boy never had a well day until he began taking Tanlac. Declares she will never be able to pay the debt of gratitude she owes the medicine.

"I will never be able to pay the debt of gratitude I owe to Tanlac for what it has done for my little boy and me," said Mrs. Nellie Peck, No. 1421 Charlotte St., Kansas City, recently.

"My little boy Curtis is fourteen years old and never in his life had he seen a well day until he began taking Tanlac. I worried and worried over his condition, but in spite of everything I could do he didn't seem to gain any strength and was weak and delicate practically all his life. He seemed to have a very weak stomach. It just looked like he couldn't eat anything and digest it like other children.

"He had no appetite at all and what little he did eat seemed to sour on his stomach. Sometimes his heart would palpitate terribly and he would get so dizzy he could hardly walk and as I stood and looked at him I thought he would surely fall over. He would have bad headaches and was nervous and could never sleep well at night. At school he was never able to keep up his work and he had to stay out a great deal on account of poor health.

"I had heard so much about Tanlac I decided to try it and see if it wouldn't help him. Well, you just can't imagine how overjoyed I was when he began to improve. I kept right on giving him the medicine until now it is hard for me to believe he is the same child. His health is better than ever before in his life and he is bright and playful all the time and he enjoys going out and playing with other boys. He has a splendid appetite and I let him eat anything he wants. He is not the least bit nervous any more and is asleep as soon as he goes to bed. In fact, he is perfectly well in every way.

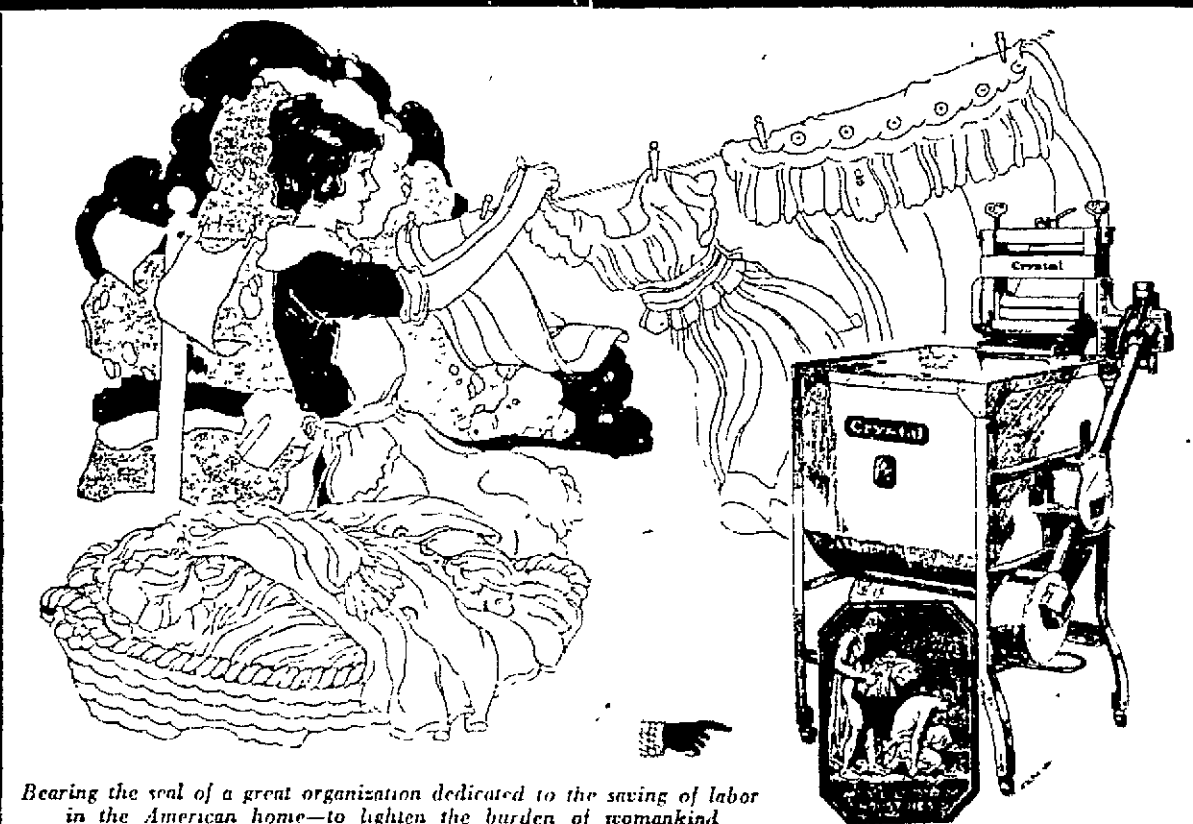

"After seeing what Tanlac did for him I began taking it myself as I have been suffering from stomach trouble, headache and dizziness for five years. Since taking this grand medicine I am now happy to say that I never suffer any more with these troubles.

"Tanlac has been one of the greatest blessings that ever came into our home and I expect to praise it as long as I live."

Tanlac is sold in San Francisco and Oakland by the Old Drug Company stores.—Advertisement.

MY HEART and MY HUSBAND

by ADELE GARRISON

(Continued From Yesterday)

Part of it was accessible to the teachers, and was used for school records of varying kinds. But one side of it was kept for the principal's use, and we rarely saw him lock or unlock it. Bess Dean had once extravagantly declared her belief that he had a secret drawer hidden in its recesses, but no one had really noticed to her words except to laugh derisively at her.

The mere fact of the desk's existence, however, was enough to excite Miss Stockbridge's jealousy. "I believe Mr. Stockbridge bought that desk himself," Miss Ackerson said.

Milly Stockbridge tossed her head in angry surprise.

"Well, upon my word!" she exclaimed. "He never—No wonder—"

She bit off both attempted sentences as if she were snapping threads with her strong, white teeth. She could have finished both of them, for I knew that she had begun to say: "He never told me about this. No wonder he forbade my coming here."

The small home motor is the most willing worker you ever saw. It is never tired and never demands a vacation. After running the sewing machine, it is ready to do other tasks with the aid of attachments—one of which is a cream whipper that not only whips the cream, but also beats eggs quicker and better than by any other method. This attachment includes a funnel arrangement that permits oil to be added, a drop at a time, and thus the cream whipper becomes an ideal mixer for the making of mayonnaise sauce. Then there is a polisher, a grinder and a fan attachment that instantly changes the home motor into a strong fan, sending cooling breezes through the room on warm days.

"Does he keep this locked all the time?" she asked, turning to me with strong suspicion. I told her I had never known anything about it. Mrs. Stockbridge returned with outward carelessness. "I once saw Mr. Stockbridge file away some school records in those drawers upon the other side. I suppose he has stored other school papers upon this side. I heard Miss Holcombe once say that before he bought this desk the office was so full of papers that you couldn't find a place to sit down. I believe Mr. Stockbridge tried to get the board to buy another desk, and finally in despair at their delay bought one himself."

"I had the sense of hurrying breathlessly to catch a train as I talked in the wild attempt to divert her suspicion. The next sensation was that of seeing the last of my disfigurement in the distance as Mrs. Stockbridge turned her face toward me with a palpable sneer.

"No doubt," she drawled. "I turned it two minutes that seemed endless she stood with one hand resting upon the desk and her eyes restlessly traveling over the office. I expected an explosion of some sort, but to my surprise, at the end of her inspection she turned to me, speaking brusquely, it is true, but without the excited rancor I had expected.

"Well, we might as well get upstairs," she said. "Will you take this cake?"

"I thankfully accepted the bundle she put into my hands, did my best not only in the interval before the other teachers came into the rest room, but during the impromptu luncheon to keep the conversation in safe channels.

"To do our guest justice she evidently made a determined effort to forget the thoughts that were troubling her, and to appear in a natural, friendly manner. But that she was pre-occupied, all of us could see.

Once she roused to interest when I took from the canister into which I had put the tea I had brought from home three packets of the tea and deposited them in the three cupboards which our menage boasted.

"Oh!" she exclaimed, as I poured the boiling water over the packets—"that's the tea I've heard about. I've meant to get it so many times. How many cups does a packet make?"

"The directions say three," I replied. "But we can squeeze five good cups from the pot usually."

"Do you mind my looking at some of them?" she asked.

"Of course," I returned cordially, bringing the canister and turning the

SWING-WRINGER AID IN WASHING

A great deal has been written about the electric washer that takes most of the work out of washday and all the dirt out of clothes, but little stress has been laid upon the swinging wringer which enables one to wring clothes from one tub to another at the same time that other clothes are being washed in the washer.

One of the wringers is reversible, with fine rolls, best steel tension springs and a patented safety guard; when one is ready to wring there is no crank to turn, no effort to be made. Just press a lever and round go the rollers. All that is necessary is to feed the clothes through. The silent electric current is again put to service to save muscle and time.

Small Motor Ever Is Willing Worker

The small home motor is the most willing worker you ever saw. It is never tired and never demands a vacation. After running the sewing machine, it is ready to do other tasks with the aid of attachments—one of which is a cream whipper that not only whips the cream, but also beats eggs quicker and better than by any other method. This attachment includes a funnel arrangement that permits oil to be added, a drop at a time, and thus the cream whipper becomes an ideal mixer for the making of mayonnaise sauce. packets out for her inspection. She looked at them with such interest that I felt a hospitable impulse.

"Wouldn't you like to try some of them?" I said. "I can easily bring more home if you will take time."

"Oh, thank you," she said, with a child's pleased interest. "May I have three?"

"All of them if you like," I returned. "I can bring some more tomorrow morning."

"Oh, no, three will be loads!" she returned. "I'll just surprise Kenny with a new kind of tea tonight."

I wrapped the packets carefully, and she put them away in her hand bag. The gift seemed to put her in a better humor, and for the rest of the luncheon she was almost gay.

LIGHT FIXTURES IN BATHROOM NEED SHADES

Most bathrooms are finished in very light colors, the walls and ceilings being of the same tint. Consequently little of the light emitted from a lamp is absorbed and there seems to be plenty of light until one tries to use the mirror. One 60-watt lamp should provide sufficient general illumination for the average bathroom, but for close scrutiny of one's features must be correctly placed. One way of placing these mirror lights is by using two short brackets on either side of the mirror with 25-watt lamps in opal shades. Bare lamps are worse than none; they shine in the eyes and obscure vision.

ATTENDANCE DROPS FOURTH. Placing the night schools of Oakland upon a tuition basis owing to the scarcity of funds to conduct them free has resulted in only a 25 per cent reduction in attendance. This is according to the report of assistant Superintendent Louis Avery who also says the board of education hopes to raise sufficient funds next year so that a tuition charge will not be necessary.

COMMANDER VISITS HOME. Commander P. Perkins, who for two years has been paymaster for the U. S. Navy at Manila and who is the son of former Senator George C. Perkins of 176 Perkins street, Oakland, has arrived here accompanied by Mrs. Perkins. Commander Perkins will remain here for a time.

REFRIGERATORS HOME PROBLEM

Ordinary household refrigerators even of the best make with the best insulated walls are by no means as effective in saving ice as might be desired.

Three points to remember in purchasing a refrigerator are, low temperature; dryness and sanitation. The low temperature in the average ice box is obtained by ice and proper insulation. The ice compartment should be large enough to hold at least 50 to 75 pounds of ice and should be kept filled in order to avoid fluctuation in temperature, which is favorable to the growth of micro-organisms that cause food to spoil.

A steady, unflinching cold is fundamentally essential to the preservation of foodstuffs, a condition that is hard to maintain with an ice-cooled box for the reason that the cooling effect of the ice cake depends upon its exposed surface and hence upon its size; as the ice cake melts away, its cooling power diminishes and the temperature of the interior of the box gradually rises. Uniformly cold temperature below that obtainable from ice is now obtained through mechanical refrigeration.

Street Fair Planned By Berkeley Matrons

Several hundred Berkeley women have been working for the success of the spring market and street fair to be held Saturday, April 24, under the auspices of those interested in the relief work of Serbia and Northern France. The fair will be given at the Berkeley high school athletic field.

Several score of booths will be arranged. The girls of the Berkeley Dispensary, under the direction of Mrs. Henry Martinez, are making candies for their booth. In this group are Miss Maud Hind, Miss Helen Pennell, Miss Grace Jackson, Miss Katherine Bennett, Miss Janet Knox, Miss Katherine Pennell and Miss Cora McCormick.

The flower booth will be presided over by Mrs. Charles William Cannm and Mrs. Walter Scott Gannon. Mrs. McCormick will have the fruit booth. A booth where southern cooking will be specialized in is that over which Mrs. E. K. Rand and a group of the younger girls will have charge. Mrs. J. S. Mills will have the White Elephant booth.

At the head of the arrangement committee is Mrs. W. K. Cole. Mrs. John Goldman and Mrs. Fred Torres will have charge of the decorations.

RETURN FROM DEL MONTE
Saturday week at noon at the home of Mr. and Mrs. Edward J. Mellen, their daughter, Miss Mary J. Mellen, became the bride of Vernon J. Holt of San Francisco. The service was read by Rev. Harry H. Smith of St. Augustine's church. The bride wore a gown of primrose tulle with a sports hat of white tulle and orange bouquet of white violets and maidenhair fern. Helen Mellen was her sister's attendant, and wore tulle tulle, tulle and a corsage bouquet of orchids and white lilies.

Dr. J. R. Byrne of Omaha, Neb., served as best man.

The bride is a graduate of Miss Kennedy's school at Del Monte. During the last two years she has made her home in the bay section.

From Del Monte and are at the Hotel Claremont previous to their departure for the Coronado. They will later go to Texas.

CHILDREN WILL BE ENTERTAINED BY THE TRIBUNE

News of the Theaters

"HAPPINESS" IS DELUXE ATTRACTION

The joyousness of youth was sympathetically and artistically portrayed by Maude Fulton in the Hartley Manners' success, "Happiness," at the Fulton Theater yesterday.

This was the first presentation of the play, which had been kept in the East and much of the West talking for many months.

Maude Fulton, as the queer little milliner's apprentice who goes to the home of the wealthy but unhappy society leader to deliver a \$2000 bonnet, but carries with her more sunshine, effervescent joyousness and quaint, infectious philosophy and good cheer than she does millinery, is right in her element. The scenes that follow are as unique as they are enjoyable.

Hartley Manners' famous play, "Peg o' My Heart," rated as the lightest particular of the world, in the line of plays, is announced for next week.

ORPHEUS BILL WELLS-BALANCED

It was a smiling, chuckling audience that filled out the Oakland Orpheus following the opening matinee of the new week's show yesterday afternoon, and with good and sufficient reason. The new program of entertainment is one of unusually well varied brilliance with three headline features.

First, Nitta-Jo, the famous French character singer, Rita Mario and her talented company of girls, Elliott Best, Charles Howard, comedian, and a revival of the Gilbert and Sullivan opera, "The Mikado," in which Jefferson De Angelis and Hanna and a number of other good and talented artists.

AT THE LIBERTY

Tonight will be a gala night at the Liberty playhouse, for it marks the opening of the first season of light opera ever offered the Oakland theatergoer.

The Gallo English Opera Company opens its five weeks' season of light opera with a revival of the Gilbert and Sullivan opera, "The Mikado," in which Jefferson De Angelis and Hanna and a number of other good and talented artists.

"MY LADY'S GARTER" KINEMA ATTRACTION

Thrills and mysteries galore permeate the Paramount Artcraft feature, "My Lady's Garter," now playing at the Kinema. The picture is an adaptation of Jacques Futrell's story and has been masterfully directed by Maurice Tourneur. Katha's Fashion Show of the latest styles displayed by live models is proving a riotous success and a special morning matinee for ladies only will be given Wednesday morning at 10 o'clock.

T. & D. SHOWS "TWO WEEKS"

There's a spice to "Two Weeks" at the T. & D. theater that raises it from the commonplace in farces to an enjoyable, humorous feast of screen wit.

It's in the unusual lines of Anthony Wharton's play and in the acting of that superb comedienne, Constance Talmadge. Signor U. Marcelli is wielding his baton here in his farewell week. "The Mystery of the Yellow Room," as the second feature on the same program. Vaudeville brings the De Costa trio and a

Chester Outing and T. & D. News Weekly are interesting side dishes to the program proper.

WILLIAM FARNUM STARS AT AMERICAN

William Farnum is seen this week at the American in "The Adventurer." The play is a veritable classic. He acts it perfectly and still tinges it with all the thrills necessary to make it "make the cut." Form the details of a thrilling play that she, with Maurice Costello and other stars, act well.

PANTAGES HAS ATTRACTIVE SHOW

Pantages has a gay show this week. The Five Berle Sisters introduce their diving in a cycle of songs. Sherman, Van and Lyman sing well and put over their comedy brilliantly. Florence Rayfield sings songs well and dresses accordingly.

Renard and Jordan are a patterning pair who have a skit which concerns a belloy and a guest.

The International Bird Cabaret is an aggregation of brilliant plumaged birds from all parts of the world, including parrots, parakeets and cockatoos.

THE ENCHANTRESS AT COLUMBIAS

"The Enchantress," a novel musical pot pourri, opened at the Columbia theater yesterday afternoon and proved an excellent sort of entertainment with Eddie Gilbert, Sally Carter and Ira Robertson in their three roles of "Pat Clancy," "Abey Cohen" and "Tony Chestnut," supported by Greenleaf Evans, Nevenchill, Norma Leslie, Ivy Darden and the beautiful chorus, always a distinctive feature of the Columbia entertainments. The attraction continues for a week with final matinee on Wednesday and Saturday.

EVIL BENNETT IS STAR AT FRANKLIN

The Franklin Theater presents one of the cleverest theater pictures shown in "The False Road." End Bennett as Betty Palmer is a member of a notorious gang. Her sweetheart has just been released from Sing Sing and surrounds the crooks by announcing that he is going straight henceforward. To spite him, Betty pulls off a big robbery at the bank where he has found a position.

On the same bill is a new Hank

Mann comedy, "Roman Romeo," a Hooten cartoon, Prisma color film and the interesting Franklin Klippings of the world's events.

THOUSANDS DISPORT AT IDORA PARK

Idora Park proved an alluring magnet for the Sunday throngs yesterday. All day the mammoth Telegraph avenue amusement park entertained youngsters of all ages—from babes in go-carts to grandfathers and grandmothers.

The thousands found amusement in diversified form. The new dancing pavilion drew other thousands and during both afternoon and evening the one-step and fox trot lovers were in their element. As usual, Noah's ark proved a popular visiting place, as did the Race Through the Clouds, the scenic railway, Over the Top and the score of other rides. Before next Sunday still another new device, called Through the Falls, will be in operation.

ROGERS COMING TO BROADWAY

Offering an unusually constructed plot with romance and thrill, William Russell is at the Broadway Theater today for the last time in "The Valley of Tomorrow."

The action brings a conflict in emotions that is out of the ordinary. Mary Thurman is his co-star.

AL BARNES' CIRCUS

Pink lemonade and peanuts hold sway today and tomorrow at Forty-fifth street and San Pablo avenue where the Al G Barnes circus is showing. By 10 o'clock today the business streets were lined to see the parade. The first show opened at 2 o'clock and the big tent was well filled. The show is to remain here tonight and tomorrow. This evening's performance will start at 8 o'clock and the opening hours tomorrow will be the same as today.

CLASS INSPECTS HARBOR

The commercial and industrial geography class of Mills College yesterday inspected the Oakland and San Francisco waterfronts under the direction of Professor L. L. Linsley. Plans for the new municipal harbor were explained to the 100 students by Commissioner Fred Soderberg, who accompanied the party. The excursion concluded at the Hunters Point drydocks.

WOMAN BURGLAR LOOTS, ESCAPE

Dr. H. L. Dietz 1240 Seventh avenue, reported to the police this morning that his house had been entered yesterday afternoon by a woman burglar during the absence of the family and that jewelry and other property valued at several hundred dollars were taken.

The woman burglar was seen prowling about the premises of the Dietz home by Mrs. J. Reinhardt who lives in the next house. Mrs. Reinhardt told the police that the woman left a small roadster at the curb while she was in the Dietz home.

Police investigation this morning disclosed finger prints about the house of Dr. Dietz which were made by the woman burglar.

Decree Awarded to War Bride's Husband

The day before Howard Auerbach joined the army on October 2, 1917, he was made happy when the object of his affections agreed to become his wife. Why and the army he was buoyed up with the thought that he had a wife waiting for him when he returned. This proved only an empty dream, however, he says, for when he returned he found his bride of a day refused to live with him and wrote him letters in which she declared she must have been drunk the day she married him. This was the testimony given by Auerbach before Judge Joseph Koford in his suit for divorce against Mrs. H. S. Auerbach. He was granted an interlocutory decree. They were married in Santa Rosa.

Just where and how is the money to be spent?

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its needs under six main heads as shown at the left.

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget; examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post of service assigned to it in advance.

Every dollar for a better America and a better world. When your church calls on you, give—and give from your heart as well as from your pocket-book

When a Man "Lets Go"

Many men, after toiling a lifetime, find themselves chained to their duties with a yearning desire to "let go" and enjoy a period of ease.

By such men this idea is worth considering: Should not a man of ripened years plan to "draw in," to narrow down his operations and his investments with a view to getting his accumulations in a form easy to handle and also to transfer safely to his successors?

Under the "Bank of Italy Trust Plan" you can accumulate, outside your business, an independent estate which will be augmented and administered under your observation, just as it will be after your death. Thus you can become independent of your business and create a certain, permanent income for your heirs. Look into this practical plan. Ask for our Booklet, the "Bank of Italy Trust Plan."

SALVATION ARMY DRIVERS GATHER

Plans for the Salvation Army campaign to be launched shortly in Oakland are quickly assuming definite shape, recruiting scores of prominent men and women to the ranks of the active workers. The Women's Auxiliary, American Legion, Appomattox and Lyons Relief corps, G. A. R. Girls of '61, Women's Auxiliary, Railroad Conductors, Ladies of Glencoe, Northern Federation of Colored Women's Clubs, Daughters of St. George and Long-fellow Parent-Teacher's association are among the women's organizations that have volunteered to sponsor the drive.

The following committee chairmen have been appointed by Herman Johnson, campaign manager: Speakers' committee, Nat. Friend, chairman; Dora Decoto, Peter J. Crosby, J. M. Davis, Rev. Charles Price, David Dutton, Fred B. Melman, J. J. Rosborough, Fred Hunter, W. H. Donahue, Harry S. Schroeder and J. J. McLattery. County districts: W. T. Knightly, chairman; M. G. Native Sons Are Meeting In Convention at San Diego

SAN DIEGO, April 18.—The forty-third annual convention of the Grand Order of the Native Sons of the Golden West, opened here today with more than 500 delegates in attendance from all sections of California. As is customary, the stay of the delegates here will be divided between business and pleasure and in regard to the latter, the local natives have made elaborate arrangements to entertain the visitors.

Some of the proposed resolutions are already causing much discussion. Among the resolutions are those which would endorse Irish independence, an amendment to the land settlement bill in favor of returned service men, opposition to further encroachment by the Japanese upon land in this state and providing that any member of the lodge who aids any such aliens in securing property shall be ejected from the organization.

In the political talk that is going on, it is generally conceded that the following is a list of delegates reported by the various parliors: California 1—Clarence W. Morris, William H. Took a Severe Cold.

Our five-year-old son Paul took a severe cold last winter that settled on his lungs and he had terrible coughing spells. We were getting worried about him as the medicine we gave him did not help him in the least. A neighbor spoke so highly of Chamberlain's Cough Remedy that I got a bottle of it, and the first dose cured him so much that I continued giving it to him until he was cured. writes, Mrs. Frank Crocker, Pima, Ill. STILL NO PLAN.

There was held last week in Washington a two-day conference of men who have been conspicuously successful in the business of selling merchandise. They had been asked to meet at the national capital by Rear Admiral Benson, chairman of the United States Shipping Board. In his letter inviting them to the shipping board officials, Admiral Benson wrote that the board is at present facing two large business problems, "the solution of which vitally affects the future of the merchant marine of this country." One is the method, price and terms of sale of its ships to private owners and the other is the operation of the fleet pending the sale and disposition thereof. There has been so much uncertainty and indefiniteness about the shipping board proceedings that private ship owners and operators have not been privileged to look upon a single important promulgation as outlining a permanent plan. Congress has also shown much dissatisfaction, there being many members who consider the shipping board a liquidating corporation which has broken down on its job. All this philandering with duty and opportunity on the part of the government has been harmful. It has held back general readjustment for many uncomfortable months. But inasmuch as no permanent plan has been adopted, despite the demands for one, Admiral Benson is right in trying to formulate one which will be practicable and acceptable. He may be right in supposing that the sale of the merchant marine by the federal government should proceed in obedience to the underlying principles that have brought success to steel and shoe business, in the grain and pork trade, and if so he has taken the correct course in seeking the advice of successful experts. But it cannot be forgotten that the government rarely does anything according to the proved rules of private business. The result of the conference should be available within a few days and Admiral Benson ought to let the country know at once whether or not he has decided upon a practical plan which the ship operating business and productive industry can rely upon as being permanent.

AN AGREEMENT REPUDIATED

A recent announcement from Washington was to the effect that Japan had informed the State Department of her adhesion to the arrangements under which bankers of the United States, Great Britain, France and Japan will enter a consortium for the financing of China. Under this plan it is proposed that the four nations mentioned will loan China approximately \$250,000,000, in installments of \$50,000,000, for the improvement of Chinese finances and internal works. On the same date this announcement was made an Associated Press cable from Tokyo, dated March 31 and delivered in transmission, stated that Japan was desirous of entering the Chinese consortium, but would not abandon her settled policy demanding the exclusion from its undertakings of Manchuria and Mongolia. According to Japanese newspapers this decision was reached at an extraordinary meeting of the cabinet on March 28. Behind the developments indicated in the above is another story of a Japanese agreement repudiated and a manifestation of the double dealing quality of Japanese diplomacy. A preliminary consortium agreement was concluded in Paris in May, 1919. It was signed by the duly accredited representatives of Japan, the United States, France and Great Britain. The representatives of Japan, under instructions from Tokyo, signed that agreement without reservations. It is a compact which would greatly benefit China and tranquilize the financial competition, with all its baneful intrigue, among the European powers and Japan in that country. It laid down four chief principles for the guidance of the financial groups associated in the consortium. These are interesting relics of a worthy purpose existing last May, and are as follows: (a) That no country should attempt to cultivate special spheres of influence; (b) That all existing options held by a member of any of the national groups should, so far as practicable, be turned into the consortium as a whole; (c) That the four banking groups of the countries in question should act in concert and in

an effective partnership for the interests of China; and (d) That the consortium's operations should deal primarily with loans to the Chinese Republic or to Provinces of the Republic, or with loans guaranteed or officially having to do with the Republic or its Provinces, and in each instance of a character sufficient to warrant a public issue. But Japan did not stand by the agreement of her Paris agents very long. Almost immediately she demanded that Manchuria and Mongolia be not considered as included in the Chinese Republic or among the provinces of that Republic; that they be acknowledged as her special sphere of activities and influence. This attitude of bad faith, according to the news service telegram, was on March 28 confirmed by the Japanese cabinet in special session.

Has there been a change since that date? Possibly one which will satisfy the public conscience and save the face of the other governments signatory to the Paris agreement of last May, but hardly one which will mean a substantial abandonment of Japan's policy of penetration and domination of Manchuria and Mongolia. Any agreement to the contrary may safely be considered worthless.

MEXICAN REVOLT GROWS.

Judging from the news from the seat of the new revolution in Mexico—the states of Sonora and Sinaloa—the armed movement against the Carranza dictatorship is gaining momentum. Either the Carranza government at Mexico City has underestimated the seriousness of the situation or been unable to send any formidable force against the insurrectionists. Governor Huerta and General Calles of Sonora have been able to achieve more success than they counted on in extending their lines into new territory beyond the Sonora border.

It is but natural that after five years of Carranza domination of the capital of the Republic and his administration of so-called government, which has meant repression and exploitation for some sections and continual conflict or neglect by the federal power for other sections, that the people in any district are ready to align themselves behind any revolutionary movement. This would be the case if the Mexicans were not given to this habit. With the Carranza threat to invade Sonora with a military force rallying local sentiment to their side, Governor Huerta and his military leaders have found no obstacles to putting their revolution on an operating basis.

Another factor aiding the Sonora revolutionists, it may as well be confessed now as later, is the attitude of Americans along the Arizona and New Mexico border. They have had enough of outrages and depredations against their property under Carranza. The failure of the administration in Washington to exact from the Mexican federal government observance of American rights and protection of lives and property, has brought the border people to a state of mind wherein they are sympathetic with any anti-Carranza movement. Anything that promises a change is a promise of improvement.

Added to these sympathetic Americans is the considerable army of Mexican exiles in the border districts. These number the most intelligent and able citizens of Mexico, men who enjoyed some measure of political power under the Diaz regime. They have long been derisively referred to by the Carranza clique as the "intellectuals," unfit and unworthy. These men have been waiting for an opportunity to put their distress and misfortune into expression with any movement calculated to overthrow the Carranza power. Naturally they look upon the Sonora revolution, just across the river from their refuge, as specially fitted to their purpose.

As an indication of the strained situation in which relations between Washington and Mexico City are apt to reach is found in the protest of Governor Campbell of Arizona against granting the request of Carranza for permission to send a military force against the revolutionists by way of United States territory. In this step he seems to have the support of most of the people of Arizona. They regard the Sonora administration and people as about the only friendly faction in Mexico; and they know that Carranza is wholly unfriendly.

There is no reasonable basis for the suggestion of sending a Mexican army through Arizona territory. If Carranza wishes to proceed against the Sonora rebels there is ample Mexican territory over which to approach them. He does not need to cross the Rio Grande, for, conformably with its duties of neutrality and with precedent, the rebel forces would not be permitted to escape into this country. However, the Wilson administration has given a sort of wobbling, indefinite promise that in case Carranza was chasing Mexican outlaws guilty of violating American territory it would consider a request for permission to send a pursuing force across American territory. This vague intimation, which should never have been uttered, is now seized upon by Carranza as a means of embarrassing the American government.

That American territory will not be at the disposal of a Carranza army without emphatic protest from practically every member of Congress from the border States is indicated in the statement Saturday by Senator Ashurst of Arizona. To aid the Carranzistas in this way, he said, would be to give aid to the avowed and active enemies of this country against the only people of Mexico who are friendly toward us.

NOTES and COMMENT

Reforestation is solemnly urged as a remedy for the paper famine. That is a fine, substantial idea; but the journals that will have to have an additional supply of print paper next week feel that it is too deliberate. This isn't a long distance need.

Political and religious ethics similar, according to the Richmond News: "A man who is converted ought to stay converted, same as a politician who is bought ought to stay bought. Otherwise it discourages both the preacher and the corporation."

Notice of the resignation of Police Commissioner Bourke of New York recalls a characteristic Roosevelt story. While Roosevelt was a police commissioner Bourke arrested one Mike Callahan, a subconqueror, who was a power in local politics. It was not supposed that any mere policeman would dare do it. Roosevelt was so pleased that he at once promoted the officer, and they became life friends.

Senator Sutherland of West Virginia is the latest to do the presidential preliminary with his hat. Wherefore is something there is widespread ignorance about, which the Senator promises to dispel in a statement. He makes the announcement with the air of one with a perfectly good reason.

The Redding Searchlight thus gives vent to its inland astonishment. "State market director advertises 'buck shad' Shades of Daak Walton! Reminds us of the old Irish lady who advertised for the return of her 'bull duck.'"

The Bavarians evidently have had enough. They talk of separating from Germany, and would like an allied countenance of such proceeding. The Bavarians are very late in waking up, and the chances are that the allies will not extend them much comfort in any sort of rough-house they may attempt with their late fellow-crusaders.

Boosting rents has not improved the relations between landlord and tenant. Several suits are now under way which are expected to more accurately define what each may do and what not. One is over tenant property held because the tenant wouldn't "clean up." It is all another result of the war.

He was entering Avalon bay—almost eighteen hours of constant fighting. Mr. C. B. Stockworth, in 1911, fought a fish for almost sixteen hours before it was landed. SUGAR CONTROL

Facts and Opinions as Presented From the "Inside" By an Organ of the Industry and Trade.

For several months we have refrained from discussing the impending shortage of sugar in the United States. Partly, because it was quite useless to discuss something that could not be avoided by any action on the part of the industry, and partly because the sugar trade as a whole has seen fit to ignore and belittle any and all attempts made by the editor to impress the people of this country with the idea, the knowledge, of the coming shortage. In February of this year one of the leading monthly publications in this country, reaching more than two million readers, printed a short warning on the coming sugar shortage, written last fall by the editor of Sugar. At the bottom of the article was a note asking those who were in need of additional information to ask their questions and to enclose a self-addressed stamped envelope for the answer. The result was absolutely staggering! For six weeks the editor of Sugar has been bombarded with letters, often 30 to 40 a day, asking for additional information on the sugar situation. Recently, as a counter propaganda, one of the New York commission saw fit to send out a statement declaring that "huge quantities of sugar were accumulating in all parts of the world," etc. More than a score of copies of this pamphlet reached the office of Sugar within a week, sent by people interested in the situation, who asked for a criticism. We gave it, and repeat it here! We believe that the person who sent out this piece of gross mis-information should be hauled before the public and compelled to acknowledge his complete ignorance. There have been silly statements made by the score in the daily press, during the "semi-panic" of last fall, but rarely has it happened that a man connected even remotely with sugar and the sugar market, sent out so ridiculous a statement, telling as many falsehoods in as few words, as the writer of that particular "trade bulletin." The sugar situation has now cleared to such an extent as to make it worth while to point out the probable trend during the remaining months of the present year. Without fear of contradiction we predict that it will be impossible for wholesalers, jobbers and dealers in sugar to purchase refined sugar at a price lower than fifteen cents at any time this year. We believe absolutely that this price will constitute the low level; that in July, August and September it will go to 17, 18 and 19 cents a pound, and that in early fall of this year a retail price of from 22 to 25 cents a pound will be customary throughout the country. The arrival of the beet sugar crop will break the high price tide, and it depends entirely on the size of this crop in 1920 how much we will pay for sugar in the winter months of 1920-21.

Sugar control must be exercised. If we wish to preserve our scant allowances. This control may be artificial and official, or it may be voluntary on the part of the people. We must cut down our consumption or there will be a true sugar famine this fall. Sugar is consumed at this moment at a rate which is exactly equal to that of arrivals in the ports of the Atlantic. Refiners cannot lay in supplies; wholesalers can barely cover their immediate needs. There is no reserve stock at this moment, and there is not enough sugar in sight to create a reserve, which may

SPLENDID INCREASES.

Census returns so far announced show that in the group of cities having more than 100,000 population, Washington ranks second in percentage of increase. The great industrial city of Toledo leads with a gain of 44.3, and the national capital, whose leading industry is government, follows with 32.1. The increase in all cities included in this group has not been reported by the census bureau, and very probably later returns will oust Washington from second place. But the figures prove that the capital has made a notable gain.

Washington's population jumped during the civil war and did not slump when that war was over. Decade after decade the population increased and the city expanded. The jump in population caused by the world war will probably be permanent increase, and the expansion of the capital will no doubt be remarkable when building operations resume the even tenor of their way. Already the city of Washington is practically co-extensive with the District of Columbia, and in all four cardinal directions the city has leaped the boundaries of the district. What may be called the metropolitan district or the capital district extends far out into Maryland and Virginia. Washington is a city of increases. It is progressing in all ways. It goes forward majestically in its growth.—Washington Star.

GIRL WAITS END
OF BECKER TERM

When Lieutenant E. Rand Becker of Oakland, formerly of the Royal Flying Corps and graduate of Stanford, leaves the county jail in Los Angeles today, he will find waiting for him in the reception room just outside the prison confines, Miss Lillian Beatty, his sweetheart, who declared in Los Angeles today that nothing but death can ever separate her and Becker.

Lieutenant Becker was torn from Miss Beatty's side last January when he was arrested in Los Angeles for forging his father's name. They were then on their way to secure a marriage license.

Becker's reckless spending dates back to when he was a social lion at Stanford University. On several occasions he cashed checks when he had no funds in the bank. His father, F. A. Becker, manager of Lloyd's Insurance Agency for North and South America, who resides with Mrs. Becker, the boy's mother, at 304 Pala street, Piedmont, each time made the checks good. Finally he cashed a check and his father refused to honor it.

Miss Beatty has not seen her sweetheart since he was taken to the county jail, when, standing by the prison gate, she slipped him a Bible, but her faith and devotion have not waned.

Ships Launched
in Local Yards

MISS ALMA PERKINS, who sponsored the freighter Narbo at its launching yesterday.

Narbo, 9400 Tons, and Meton, 10,000 Tons, Leave the Oakland Ways.

Two more vessels were added to the American merchant marine yesterday when the Narbo, a cargo-carrying vessel, and the Meton, a tanker, were launched at the Moore shipyards. The Narbo slid from the ways at 12:15 p. m., and Miss Alma Perkins, a niece of former Senator George C. Perkins, was the sponsor. The Meton was sent into the water at 1:30 o'clock. Miss Mae Lawlor of San Francisco christened her. The launchings were held at the same time as the Narbo owing to the fact that it is a 10,000-ton craft and required a higher tide. The Narbo is a 9400-ton vessel.

The launchings of the Meton marked the fifth ship upon which William Grant, head of the wood-working department of the Moore shipyards, has worked and helped launch. This is one ship for every year of his life.

The two bottles of champagne used in the christening were valued at \$50 apiece. Permission to use wine at the two launchings had been obtained from Washington, D. C.

C. P. Holmes Is
Jailed at S. F.
As Master Thief

Arrested late last night in San Francisco by Deputy Sheriff Tom King, after eluding the police of two cities for six months, Clement P. Holmes, alias O'Neil, said to be a notorious shoplifter and confidence man, who is alleged to have defrauded Oakland department stores to the extent of thousands of dollars during the last few months, is today in the city prison.

Holmes, who is 26 years old and well educated, was arrested on a charge of petit larceny, which this morning was changed to forgery. King, who is a special officer employed in an Oakland department store, has been on the trail of Holmes for six weeks. Holmes obtained hundreds of dollars' worth of merchandise from the store by giving the names of prominent credit customers and also passed a fictitious check, the police say.

Several other Oakland department stores are said to have suffered from the operations of Holmes. He is alleged by the police to be the leader of a gang of six shoplifters and thieves. Included in the gang, the police say, are Willie De Bodie and Frank Tripp, both confidence men with long criminal records.

For six months Holmes has baffled the police at every turn. His favorite method was to exercise his powers of vocal impersonation over the telephone. By representing himself as an attorney or by imitating the voice of a woman over the telephone, Holmes has repeatedly called upon the police and learned from them of the efforts to capture him.

On one occasion he beguiled the police into going to San Mateo in a fruitless chase for him, while he remained in Oakland. He did this by first telephoning the police and telling them who it was, and then coming on the line again, telling the police it was the operator and insisting that the call had come from San Mateo.

Holmes has served a term in the Ingleside reform school and has also been incarcerated in the Agnew insane asylum.

During the last six months he is said by the police to have defrauded local stores and San Francisco stores out of merchandise and money to the value of more than \$5000.

He was captured by King last night as he emerged from his mother's home at 4402 Eighteenth street. His mother, Mrs. Ada O'Neil, is a school teacher.

FIVE TESTIFY IN
WOODCOCK TRIAL

SAN FRANCISCO, April 19.—The trial of Mrs. Alice Harris Woodcock on a charge of perjury gathered momentum today, five witnesses for the prosecution having been called to the stand when the noon adjournment was taken, although Superior Judge Louis Ward observed that a great deal of testimony not germane to the issue before the court had been submitted.

Warren C. Cooper, mining engineer, concluded his testimony after a brief appearance on the stand. Neal McClelland, municipal street car conductor; Edward A. Abbott, street car conductor; W. W. Amner, a chauffeur, and Arthur Downey, switchboard operator, repeated their testimony given at the trial of Woodcock, as to having seen Mrs. Woodcock walking up and down Market street in the vicinity of the shooting, and smiling at men.

Livermore Host to
Oakland Shriners

LIVERMORE, April 19.—About 500 members of Aahmes Temple, Order of the Mystic Shrine, and their relatives and friends journeyed to this place from Oakland on Saturday afternoon on their second annual pilgrimage. There was a street parade at 7 p. m., headed by the Aahmes band of thirty-six members, followed by fifty Shriners in costume, and several hundred others, including the local members of the order.

A banquet was given in the Murphy warehouse, where 550 guests, and a street dance was given later in the evening by the Women's Improvement Club of Livermore, but on account of the cold north wind adjournment was soon taken to Sweeney opera-house, where the merriment continued till a late hour.

Sunday from 10:30 a. m. till noon the Aahmes band gave a concert at the Arroyo Sanatorium, near Cresta Blanca, and opened an open-air dancing along the shady banks of the Arroyo del Valle followed, in which 700 persons participated. A committee from the local Masonic lodge headed by T. W. Norris arranged for the entertainment.

Overall Clubs Organizing;
Eastbay Will Don Denim

The Overall Club as an Eastbay institution will come into being tomorrow when groups from Centerville to Oakland don the denim to the high cost of living.

At Polytechnic college in Oakland today the students elected F. P. Robinson president of the Overall Club and pledged themselves, most seriously, to appear tomorrow in the costume of their order.

At business houses in Oakland, Berkeley and Alameda the employees have announced the intention of forming Overall clubs and of spreading the movement. The force of the Spiro store in Oakland has announced that its official advent into the movement will be made tomorrow.

Fifty citizens at Centerville today elected James B. Moran, superintendent of the Booth cannery, as president of the Centerville Overall club. Postmaster F. E. Hawes was named vice-president, and the following are members of the board of directors: George L. Lawrence, banker; P. C. Hanson, lumber dealer; Joseph Amorel, merchant; R. T. Anderson, capitalist; George P. Lowrie, farmer. Penalties are provided for those who violate their pledges and wear trousers other than overalls.

SACRAMENTO, April 19.—The overall army today invaded the State capital, where 150 employees and officials representing every branch of the State government from the governor's office to the watchmen who patrol the grounds appeared on the job this morning clad in overalls. Women employees wore gingham dresses. Mayor Brown is expected to issue a proclamation this week calling on all citizens to wear denim and gingham until clothing prices are reduced. The city commissioners will set the example by appearing at their next session in overalls.

ST. THOMAS, Ontario, April 19.—The overall crusade in the United States has spread over the border to Canada, and clubs have been organized here and at several nearby towns.

BOSTON, April 19.—Overall headed the shoppers' list today in numerous Boston homes. After Rev. Louis L. Dunnington appeared last night in his pulpit at Orient Heights M. E. Church wearing overalls and jumper, more than 200 of his congregation signed the overalls pledge. At Medford, Rev. Rollin Stuttle, clad in white denim, preached his first sermon as pastor of the Hillside Methodist Episcopal Church.

NEW YORK, April 19.—The Cheese Club, which introduced the overall campaign to New York, today started a new attack on high prices by urging overall wearers and others to carry lunch boxes to work. "Dollar and more" lunches are the reason for the latest movement.

THIEVES LOOT HOUSE.

Burglars entered the home of Charles Hornum, 5375 Wentworth avenue, today, while the family was away and stole jewelry and Liberty bonds valued at \$349.

COULD NOT STAND STRAIGHT.

It does not take long, when the kidneys are out of order and not doing their work properly, for poisoning acids to accumulate in the system and cause aches and pains. D. C. PROTEST LETTER
SENT SUPERVISORS

A protest received by the supervisors today from the Building Trades Council urging that only union men be employed in cement work at the county infirmary, was declared by the supervisors and Dr. R. G. Brodrick, director of hospital, to be the result of a misunderstanding.

Dr. Brodrick said that only about once in three days is there any cement work done. He said it would not pay to have a 10-day man doing nothing for most of three days while waiting for the cement work to be ready, and that the foreman is a cement worker and the work is done by him.

A resolution was passed empowering Dr. Brodrick to invite the San Francisco supervisors to visit the Arroyo sanitarium next Sunday.

Five Neptune Beach
Car Victims Better

The five persons injured Saturday night when the cable pulling one of the cars on the scenic railway at Neptune Beach at Alameda broke are reported out of danger today.

Miss Mabel Poulsen, 2241 Pacific avenue, Alameda, the most seriously injured, has bruises about the neck and shoulders, and is confined to her bed. Alice and Ida Williams of the same address have recovered from shock. A. K. Sherbourne, 1298 Eighteenth avenue, Oakland, and A. Sherman, 6225 Harmon avenue, Oakland, the other occupants of the car, escaped unhurt.

A-B-C
Super Electric
America's Leading Washing Machine

The big feature of the A-B-C is the exclusive, patented method of reversing the cylinder at every revolution. This combines all the advantages of both cylinder and oscillating types, giving the greatest agitation, and forcing suds through the clothes faster; it brings the clothes out clean in the shortest possible time without in any way injuring the fabric. The cylinder reverses silently—no jar.
